## Easy to handle... Quick to set out... Dynamic in use... Compact to store...

**Tip 'n' Store dining units are compact and versatile making them ideal for rapid setup of dining spaces and small group areas.**

They are compact and easy to move through doorways, within rooms. 24 units - enough to seat nearly 100 people - will store in under five square metres.

A carefully considered seat to table top proportion ensures a comfortable seating position. Units store simply by tipping them onto castors at one end and wheeling them into a 'queue'.

They can be supplied in a range of finishes and colours.

Tip 'n' Store dining units satisfy UK Manual Handling Regulations - meaning they can be handled effortlessly within the body's normal range of movement for lifting.

No trapped fingers, no mechanisms to service, and safe to use.

Extremely robust construction

### Specification

No moving parts to service, come apart or to trap fingers.

Structure: 38mm diameter tubular steelwork.

Table tops: 20mm thick, have no dirt traps and are surfaced in a wide range of Formica colours.

Storage: 25% less than alternatives. Groups of tables can pass through standard doorways on their wheels.

Covered by provisional patents worldwide.
